

Hours of Service on MCP200 Platform

# Hours of Service

## Let Hours of Service give you the advantage – on the road and in the office.

At Omnitracs, we understand the challenge your company faces in maintaining accurate logs and timely monitoring of driver hours. Cumbersome, and potentially inaccurate, manual log systems increase your company's exposure to risks, such as higher costs due to compliance breaches, reduced productivity, and operational inefficiency. Hours of Service application automates driver logs and is fully compliant with the latest rules and regulations of the Federal Motor Carrier Safety Administration (FMCSA).

### With Hours of Service, you manage your fleet more efficiently.

Hours of Service provides near real-time monitoring of drivers' hours, improves reporting accuracy, and lets drivers focus on what they need to — drive safely and efficiently. Your fleet managers and dispatchers have the ability to access driver availability and reports, including duty status, driving time, and remaining hours of service. This information is all easily accessed through the web browser.

#### Features

- Drivers enter non-driving duty status changes through the intuitive driver display
- Fleet managers receive automatic updates about duty status, driving time, and remaining hours of service
- Hours of Service automatically notifies both your drivers and dispatchers, in near real-time, of impending or actual violations
- Fleet managers and dispatchers can review driver status and availability as well as customized Hours of Service driver-management and safety-audit reports
- Hours of Service supports both individual and team drivers and responds automatically to requests for facsimile copies of records-of-duty status
- Drivers can view, save, and print their logs using a Web browser through the Hours of Service Driver Portal
- Drivers have easy access to 24/7 hotline support for roadside inspection and audits

#### Benefits

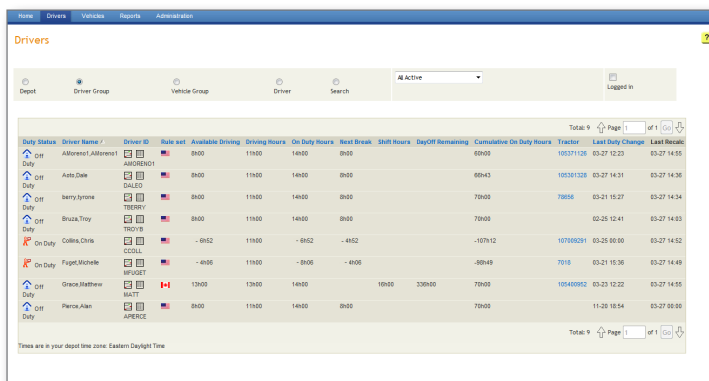

- Maintain FMCSA regulatory compliance
- Reduce the risk of violations and the cost of fines
- Simplify log processes and improve reporting accuracy
- Reduce the risk of record tampering
- Reduce administrative costs
- Enable proactive fleet management
- Increase productivity and operational efficiency

# Ensure Compliance and Reduce Liability

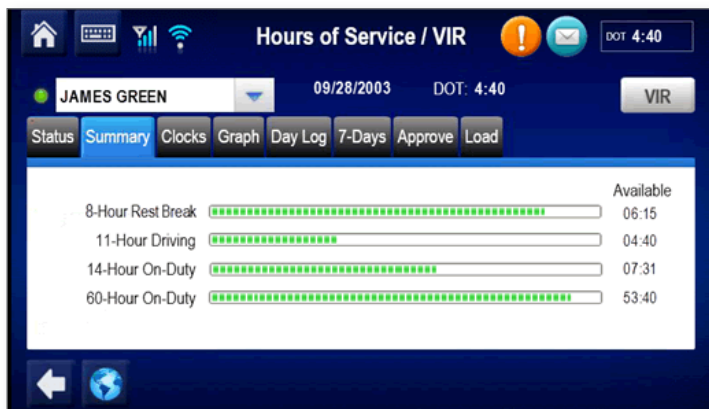

## A Reliable, Secure Solution for Today's Carriers

With Hours of Service, your drivers are prepared for roadside inspections, and inspectors can verify drivers' identities and retrieve records-of-duty status. You can view complete reports on demand via Web browser or fax. With our redundant Network Operations Centers (NOCs), uninterruptible power supplies, backup systems, and industry expertise, you can be certain of data security and technological reliability.

Driver Name	Driver ID	Status	Available	Driving	On Duty	Next Break	Shift Hours	DayOff Remaining	Cumulative On Duty Hours	Tractor	Last Duty Change	Last Reset

## Getting More from Your Technology Investment

The Omnitrac Alliance Program facilitates integration of Omnitrac solutions with other leading companies that provide complementary technologies and services. This program taps into the power of integration in order to best meet the needs of our shared customers.

We offer Omnitrac Professional Services to all sizes of fleets to help you utilize our applications and our partners' applications in the most efficient way. Our assessment, integration, custom development and programming, training, business intelligence, and predictive modeling services deliver practical solutions. This critical information increases your productivity and efficiency, so you can both grow and differentiate your business.

The Omnitrac Services Portal provides access to a suite of web-based fleet management applications, including satellite mapping. Data from the Services Portal can be integrated into your existing enterprise systems.

## About Omnitrac, LLC

Omnitrac is the global pioneer of innovative and comprehensive fleet management solutions transforming the transportation industry through technology and insight. Omnitrac's more than twenty five years of leadership and experience uniquely positions it to serve the industry's needs for seamlessly integrated compliance, safety, productivity, route planning and delivery, analytics, and transportation management system solutions. Omnitrac's more than 1000 employees deliver software-as-a-service based solutions that help more than 40,000 private and for-hire fleet customers manage over 1,500,000 mobile assets in more than 70 countries. Omnitrac's portfolio encompasses Omnitrac Latin America and the solutions formerly known as Roadnet Technologies, XRS Corp, Sylectus, and Omnitrac Analytics. Omnitrac is a member of the Vista Equity Partners group of companies.
